

## Memorization Card Editor

Below is the template for a double-sided tri-fold wallet card. Use one, two, three panels or all six panels. Print double-sided as needed, cut out the part you will use.

- This form can be viewed, edited, saved, and printed using any one of several apps. These include some of the popular web browsers and free versions of Adobe Reader.
- Enter text in one box or both. You can type in the box or copy and paste. **You may need to click in the rightmost boxes to update them.** Look carefully at the app you use to find a way to save the PDF with the text you entered.
- After printing, cut out the pair of red boxes on the right. These will print to scale. Fold at the center dividing line.
- When printing, the typical setting is full size, which should be the actual design size.
- This version does not implement a standard corner radius.

The standard credit card size is: WIDTH 3.375 Inch, HEIGHT 2.125 Inch, THICKNESS 0.0625 inch, RADIUS, 0.125 inch.  
The printout of the card is  $\frac{1}{20}$ " in smaller than a credit card.

Enter text in input box, click mouse output box to update it.

Printing: 11:39 am Friday October 6, 2023 File name: walletCARD-6panel-v0b.tex/pdf
